ABOUT SINGAPORE DISCOVERY CENTRE

Singapore Discovery Centre (SDC) is a non-profit organisation whose mission is to share the Singapore Story and inspire a desire to contribute to Singapore's future. SDC provides a mind-and-heart-engaging, multi-sensory learning experience which spans a selection of integrated themes. SDC's guests learn about what makes Singapore tick and gain insights into Singapore's challenges, dreams and aspirations.

ADDRESS BY CHIEF EXECUTIVE

Dear Educators, NE / CCE practitioners,

It has been a long journey through COVID-19. As a nation, we have learnt to live with the virus and with the situation currently stabilising we are pleased to resume normalcy in our operations. In recent months, we were delighted to welcome back many school groups to our Centre for physical learning journeys. This enabled us to showcase our rejuvenated Centre to tell the Singapore Story and engage schools, educators and students. On the digital programmes front, demand has tapered for now, but we will continue to deepen capabilities and develop new products for schools to have additional options. Indeed it is with the unstinting support of MOE and our wide network of NE partners, that we continue to deliver on our mission to tell the Singapore Story and inspire a desire to contribute to its future.

Singapore Discovery Centre (SDC) is committed to be at the forefront of pedagogical innovations to offer fun, engaging and cognitively stimulating programmes. For Total Defence 2022, we offered a buffet of programmes including in-Centre, digital facilitated and DIY, as well as outreach programmes with Commitment to Defence Ambassadors (C2DAs) and National Education Facilitators (NEFs). In collaboration with MOE, we rolled out 'Access Denied', a Virtual Escape Room title developed for JCs, Polytechnics and ITEs. For National Day school programmes 2022, we introduced a new format incorporating dance, theatre and race segments. This was well received hence we will continue to experiment with and offer such multi-genre formats.

As the national level, Sustainability continues to be a pressing concern and SDC is playing its part to grow awareness and promote action through tours and programming across different school levels. Despite COVID-19, SDC embarked on its centre rejuvenation and accelerated the implementation of green innovation projects. We are committed to our 'Greenest Plan', which includes solar power infrastructure and green initiatives. Today, SDC is already reaping some

of the benefits such as offsetting more than 60% of its energy consumption with solar energy. We are also aspiring to be Singapore's first net-zero energy museum by early 2023.

Digitalisation is another key thrust that we have been embarking on for some time. Through virtual platforms, we were able to conduct youth leadership programmes with participants in different countries. We even developed a 360° Virtual Tour of our Permanent Exhibits Gallery as an in-house effort. Indeed, SDC will continue to innovate and tap opportunities in the areas of emerging technology such as the metaverse and AR realms to deliver more impactful programmes.

Moving forward into 2023, we are pleased to present new and enhanced programmes that you will find in this booklet. I would also like to take this opportunity to share that SDC will be managing the newly refurbished Navy Museum by early 2023 and will be rolling out additional new programs, so do stay tuned!

Best wishes and warmest regards,

Joseph Tan

Through cohort-based assembly talks covering a range of topics related to Total Defence, National Service (NS) and defence-related matters, students can attain a deeper understanding of the role of the SAF, as well as gain exposure to key geo-political issues and threats facing Singapore.

The National Education Facilitators are well-equipped to share regarding topics concerning Singapore's security and the current SAF capabilities. The sharing by NEFs can also be tailored to suit the learning needs of schools. Some of the highly requested topics include:

- Ops experiences and his / her day-to-day role in the SAF
- Importance of Total Defence with emphasis on Military Defence
- Importance of National Service
- Geo-political environment, and its impact on Singapore (e.g. Singapore-Malaysia dispute)
